

ANNUAL REPORT
2023

Our Vision

Work aims at a world in which every child attains the right to survival, protection, development and participation.

Our Mission

Is Working to bring love and belonging to the vulnerable and less fortunate children & youths through education & women empowerment in our community where we work.

WHY EDUCATION?

We believe in the power of education to break down the barriers preventing children, youth, and their families from living prosperous lives.

Lack of access to education often results in unemployment, underemployment, and entire communities being trapped in an endless cycle of poverty.

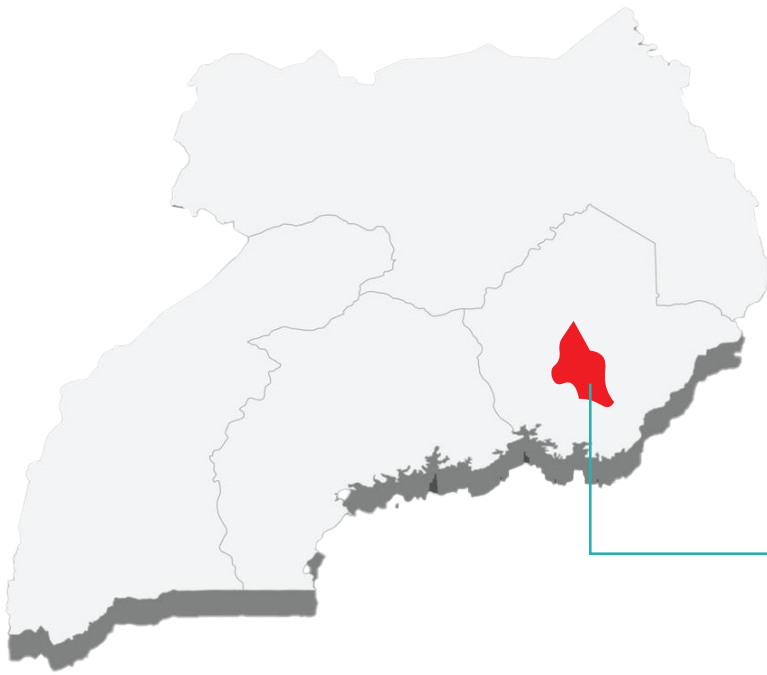

WE CAN CHANGE THIS

Our holistic approach to education involves the entire community. Together, with help from parents, teachers, community leaders, and supporters like

you, we are transforming the future of children and youth.

WHERE WE WORK

NAMUTUMBA

The economic context continued to affect food security at the community and household level, and the rise in the cost of the basket of consumer goods in the last months of 2021 was a significant challenge for many families who participate in our programs.

In 2021, the COVID-19 pandemic hit our communities hard, more so than in 2020, with nearly every family being affected by the virus.

Additionally, in the last two months of the year, we observed an increase in school drop out since there was no school fees for the children and others remained orphans due to Covid 19, through our programs we can make a change in this community with the help of our donors.

IN BUWONGO VILLAGE.

14.6%

of the population lives on less than \$2 a day.

44%

of households reported lower income in 2021

43.7%

of the population is underemployed.

26%

of households run out of food before the end of each month.

EDUDCATION

Children's Wish Foundation's holistic approach to education and early childhood development is essential to our foundational education program. We partner with parents and teachers alike so that children ages 0-6 are able to meet key milestones during this crucial developmental period.

In the Primary Education Program, we employ a community-based approach to education that includes after-school enrichment, nutritional support, access to trained teachers, and parental involvement. Through this program, children can develop the skills they need to be ready for the next stage of development.

Are Female

40%
Are Male

SKILLS DEVELOPMENT

By combining vocational education and on- the-job training, we empower students with the tools they need to develop and sustain livelihoods that can help them break the cycle of poverty and realize their potential.

35%

are skilled in
entrepreneurship and
they started small
businesses

NUTRITION

At Children's Wish Foundation we knew that although a lot of children were coming to learn, many sat at their desks unable to learn because of the hunger in their empty stomach.

1000
Meals Served

SPORTS FOR MENTAL HEALTH

Engaging in physical activity through sports can have numerous benefits for mental health, including reducing stress, improving self-esteem, fostering social connection, increasing focus and concentration.

ADOLESCENT GIRLS & YOUNG WOMEN EMPOWERMENT

Children's Wish Foundation Uganda empowers girls with life skills, education, and sisterhood is vital for them to become thriving women. Every year a girl goes to school can increase her future income by 10 percent.

OUR 2023 HIGH LIGHTS

105 Student

All our students were promoted to other classes since they passed all the exams.

1000 Meals Served

Served in Children's Wish Foundation Center in Buwongo Village.

We got a donation of the unfinished house:

which we are turning it into shelter children's library and computer center.

10 young mothers:

started small businesses to support such that they can thrive from poverty.

We got a donation of 1000 story books:

Through Enjuba Uganda from African library which will help us to equip our children's library when its finished and this will help our students to learn how to read and write hence making an impact in our community.

FINANCIAL REPORT

2023 Total Revenue

\$2000

80% of the revenue is individual donation from our friend worldwide.

20% of the revenue is in kind revenue.

IVESTIMENTS

We used \$800:

To start building the house which was donated to us and we want to finish it and make it shelter and children's library.

We \$500:

In scholastic materials and clothing's for the kids in our care.

We also used \$700:

In the meals for the children such that they can have good classes at school.
